HTRC Corrugated Pipe Couplings

Large diameter corrugated pipe couplings 10" to 60"

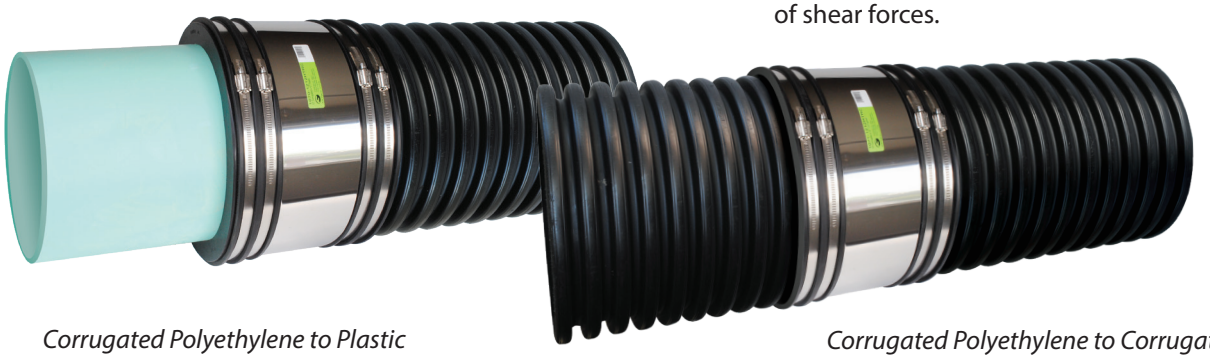

Technical Data

Ultimate Shear Resistance - .012" (12mil) 300 series stainless steel shear ring offers greater sealing force on corrugated pipe and ensures a water tight seal is maintained.

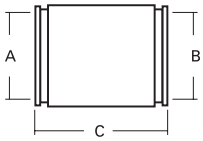

Ultimate Pipe Alignment - Due to the thickness and strength of the shear ring, you are assured consistent pipe alignment against shear forces from soil compaction, shifting and settling.

Ultimate Sealing High Torque Clamps - 316 Series Stainless Steel **High Torque Clamps**, offering greater sealing power and excellent corrosion resistance.

Ultimate Sealing Gasket - The flexible PVC gasket has a smooth inside surface providing greater sealing performance than ribbed rubber gaskets. The smooth internal wall of the gasket makes contact 360° over its entire length. This equates to a larger sealing surface and a higher coefficient of friction, providing maximum sealing capabilities as well as preventing slippage under the weight of shear forces.
