Fernco Inc.

QwikSeal®

If you can **core through it,**
QwikSeal can **connect to it.**

BENEFITS

Meets ASTM Standard
Complies with ASTM C 923 standard, ensuring quality performance.

Water-Tight Compression Seal
Ensures a water-tight compression seal up to 10 PSI and handles up to 7º of deflection in concrete manholes.

Color-Coded Identification
Features easy-to-identify colors - Grey for Sch. 40 pipe lateral and Green for SDR-35 & 26 pipe inlets - streamlining installation and reducing errors.

Universal Compatibility
QwikSeal's 5-product lineup is compatible with virtually any mainline pipe material minimizing inventory and simplifying selection.

Hassle-Free Installation
Installs easily without disturbing bedding, requiring no glues, epoxies, grouts, or difficult to use hubs.

Made in the USA
QwikSeal lateral connectors are proudly made in the United States.

FERNCO QWIKSEAL

PART NUMBER	PIPE INLET	HOST PIPE SIZE APPLICATION
QS-4	4" SDR	8" diameter or larger, concrete, clay or solidwall plastic pipe or 8" - 24" corrugated plastic pipe
QS-4S40	4" SCH-40	8" diameter or larger, concrete, clay or solidwall plastic pipe or 8" - 24" corrugated plastic pipe
QS-6	6" SDR-35 & 26	10" diameter or larger, concrete, clay or solidwall plastic pipe or 10" - 24" corrugated plastic pipe
QS-6S40	6" SCH-40	10" diameter or larger, concrete, clay or solidwall plastic pipe or 10" - 24" corrugated plastic pipe
QS-8	8" SDR-35 & 26	15" diameter or larger, concrete, clay or solidwall plastic pipe or 15" - 24" corrugated plastic pipe

FERNCO HOLE SAWS FOR PLASTIC PIPE

PART NUMBER	DESCRIPTION
QS-5x4HS	5" OD x 4" Deep Hole Saw with Arbor
QS-7x4HS	7" OD x 4" Deep Hole Saw with Arbor
QS-9x4HS	9" OD x 4" Deep Hole Saw with Arbor

- Economical, lighter and easier to handle
- General purpose tempered steel hole saw specifically designed for coring plastic pipe, even high profile corrugated
- Use with low speed - high torque hand drills

FERNCO CORING BITS FOR CONCRETE OR CLAY PIPES

PART NUMBER	DESCRIPTION
QS-5x14CB	5" OD x 14" Length Abrasive Coring Bit
QS-7x14CB	7" OD x 14" Length Abrasive Coring Bit
QS-9x14CB	9" OD x 14" Length Abrasive Coring Bit

- Diamond tipped abrasive bit used for coring reinforced and non-reinforced concrete and clay pipe materials
- Use with water as coolant
- Use with all standard coring machines
